PROSTHETICS & ORTHOTICS OF GEORGIA

Capability Statement

About Limbcare

Limbcare Prosthetics and Orthotics of Georgia is a **Service Disabled Veteran Owned Small Business** that provides the most advanced orthotic and prosthetic services throughout Southwest Georgia.

With more than 42 years of experience, we help amputees and individuals with musculoskeletal disabilities and injuries maximize their quality of life and regain self-confidence. From artificial limbs, braces, orthotic shoes, or insert Limbcare offers a complete range of services and product.

With seven offices located throughout the region, Limbcare has certified specialist and technicians who customize and fit prosthetic and orthotic devices. Each year our team fits hundreds of patients facing a wide variety of conditions in the latest prosthetics, braces, and supports, providing these products and practicing extraordinary patient care has helped get patients back on their feet, and once again enjoying life.

The loss of a limb or any bodily ability can be emotionally and physically devastating. Know that you are not alone.

Our Mission

To be the leader in providing the most advanced orthotic and prosthetic service in a timely and professional manner, while maintaining a pleasant and relaxing clinic environment.

Let Limbcare Serve You

Limbcare has certified specialists and technicians who customize and fit prosthetic and orthotic devices. Our support staff team is also ready to assist every patient who walks through our door. As a veteran and family-owned business, we make it our business to help our patients' feel like they are part of our family. We are here to listen to you, consult with you, and then tailor prosthetic care to your individual needs and goals. Limbcare offers every patient personalized service close to home.

Limbcare is Southwest Georgia's premier provider of orthotic and prosthetic services and products. With more than 42 years of combined experience in prosthetics and orthotics, Limbcare offers the most advanced technology, patient-centered programs and support groups as well as extraordinary patient care. As a veteran and family-owned business, we make it our business to help our patients' feel like they are part of our family.

Prosthetics

Prosthetics is the design, fabrication and fitting of custom-made artificial limbs or other assistive devices for patients who have lost limbs as a result of traumatic injuries, vascular diseases, diabetes, cancer or congenital disorders. These devices restore, as completely as possible, the function and appearance of a full or partial missing limb

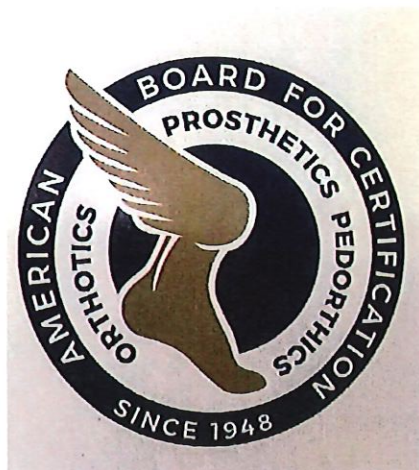

Orthotics

Orthotics is the design, fabrication, fitting and supervised use of devices that provide external support or assist weak or abnormal joints and/or muscle groups. Braces and supports can dramatically improve the quality of life for people with specific musculoskeletal conditions caused by illness, injury or congenital anomaly.
